

Our half dollars will build a greater Oregon

IF EVERY resident of Oregon diverted 50 cents a day of his or her present normal expenditure to the purchase of Oregon-made products the immediate result would be:

- 25,000 more people employed in Oregon industries
- \$30,000,000 increase in annual payrolls of the state
- \$120,000,000 increase in yearly output of Oregon factories

Insist upon Oregon-made products. They successfully compete with the worlds best.

Buy Oregon-made goods on MERIT. Our half dollars will build a greater Oregon.

WAR TAX

Effective May 8, 1922, the Excise Tax on United States Tires for passenger cars, both casings and tubes is absorbed by the makers and is not added to the selling price.

For Ten Dollars and Ninety Cents - This 30 x 3 1/2 Usco

THE 30 x 3 1/2 tire situation today is just this—
The man who buys an USCO at \$10.90 is justified in believing that his money is going farther in tire value than it ever has gone or could go before.

Naturally he appreciates the quality of USCO. That was established long ago.

It is still fresh in his mind that USCO led the national market into the \$10.90 price range.

The makers of U.S. Tires always intended the 30 x 3 1/2 USCO to be the highest value in its field.
At \$10.90 it creates a new classification of money's worth.
